## LEGISLATION AGAINST JAPS IN CALIFORNIA

(Associated Press.)

SACRAMENTO, Jan. 6.—Three bills dealing with the Japanese question will be introduced in the assembly. Former Congressman Grove L. Johnson of Sacramento has prepared all the measures and as floor manager will make a strong fight for their passage. The first prohibits aliens becoming members of corporations; the second inserts the word "Japanese" in the law regarding the segregation of oriental school children. The statute at present segregates Mongolians, and the Japanese claim they do not come under that classification. The third bill segregates "aliens" whose presence may be inimical to the health and public morals of a community, and while the Japanese are not mentioned specifically the measure is aimed at them.

## MITCHELL TALKS TO WORKERS

(By Associated Press.)

NEW YORK, Jan. 6.—John Mitchell, in a speech before a crowd that packed the Manhattan Trade school, tonight discussed in a measure the recent decision of Judge Wright, wherein the speaker, Samuel Gompers and Frank Morrison, were sentenced to a term in prison. Mr. Mitchell began by declaring it not the time or place to discuss the matter. Later he said:

"This is the time for the working people of America to arise in their might and perfect their unions. I do not advise doing anything now that I would not have advised thirty years ago. Conditions have not changed, even if a few of us are going to jail."

"I want the working people to put themselves in a position where they will not have to strike," continued the speaker. "The right to strike is the right to industrial freedom, but a weapon to be used when everything else fails. When all else has failed, then I say strike, and strike hard."

"They will be talking more about labor two months from now than ever before and from this discussion good will come."

"I've got a great deal to say about it, but at another time and it will be heard by a larger audience than the one here tonight."

## Enormous Quantities of Supplies of all Kinds and Many Physicians and Nurses, Furnished by Americans, Show the Quality of Americans' Sympathy

(Associated Press.)

ROME, Jan. 6.—Ambassador Griscom will leave here tomorrow for Messina to meet the American squadron, which is expected to arrive Saturday under Rear Admiral Sperry. The steamer Bayern, the American relief ship, flying the Red Cross emblem, will sail for Messina tomorrow. The steamer carries three physicians and fifty nurses. In the last forty-eight hours \$15,000 was spent in Rome and \$10,000 at Genoa for clothing alone. The cargo includes 1450 blankets, 4350 suits of underclothes, 1110 pairs of shoes, 1110 hats, 600 heavy overcoats, 250 capes, 1110 shawls, 700 suits of clothes, 300 extra trousers and a great quantity of other wearing apparel; a ton of candles and 5000 boxes of matches are among the supplies, together with all kinds of implements for digging and repairing; lanterns, sewing cotton, scissors, nails, hammers and kitchen utensils. There are also medical supplies sufficient for the establishment of three complete camp hospitals. Those in charge of the expedition have \$20,000 in small bills for careful distribution. The generosity of the American people in coming to the aid of the earthquake sufferers is the predominating feature that is now attracting much attention here, and a feeling of gratefulness extends from the king down to the most lowly subject.

The government has decided to propose to parliament a 5 per cent additional land, house and income tax for two years, and a tax of 1 per cent on each railway ticket sold. It is estimated this will bring \$7,000,000, which added to the more than \$7,000,000 surplus in the Italian budget will enable the government to face the financial crisis without imperilling the treasury.

## SPECULATORS ARE KEPT JUMPING

(By Associated Press.)

NEW YORK, Jan. 6.—The stock market had apparently disposed of the distributing effect of the collapse in Consolidated Gas before the day's session at the stock exchange had proceeded far. The reaction in New York Central was based, like that in Consolidated Gas, on previous excessive speculation. Bonds were irregular.
